# Technical Information

# Filter Aid Kieselguhr C 3500

# Kieselguhr, Coarse

Kieselguhr C 3500 from Eaton's Begerow Product Line is a coarse diatomaceous earth for clarifying liquids heavily loaded with turbidities in the food and beverage industry. It is also ideally suited for primary precoating.

The specific advantages of Kieselguhr C 3500:

- High clarification sharpness
- Optimum dirt holding capacity
- Reliable filtration through rapid formation of an adherent filter cake
- Economic due to the optimum ratio of flow rate and clarification sharpness
- Maximum purity

# Application

Kieselguhr C 3500 is used for diatomaceous earth filtration in the following filter devices:

- Pre-coat sheet/frame filters with washable support sheets, e.g. BECO<sup>®</sup> ENDURA<sup>®</sup> support sheets
- Pre-coat filters (vessel filters) with horizontal or vertical screen elements
- Cartridge filters with vertical filter cartridges
- Rotary vacuum filters for separating larger trub quantities, according to the machine manufacturer's specifications

#### **Optimization of Pre-Coat Filtration**

Filtration performance can frequently be improved by combining diatomaceous earth with other filter aids, e.g.

- BECOLITE<sup>™</sup> filtration perlites,
- BECOCEL<sup>™</sup> filtration cellulose fibers,
- BECOFLOC<sup>®</sup> filter flakes pre-coat filtration.

### **Product Characteristics**

Kieselguhr (diatomaceous earth) is produced from the silicaceous deposits of microscopic diatoms. The powdery Kieselguhr C 3500 is produced by mixing specially selected particle sizes. It is largely free from non-filtering components such as fine dust and silica sand.

#### Safety

When used and handled correctly, there are no known unfavorable effects associated with Kieselguhr C 3500. Inhalation of dust is harmful. If dust forms, use an extractor or wear a breathing mask.

Further safety information can be found in the relevant Material Safety Data Sheet, which can be downloaded from our website.

### Storage

As an active adsorption substance, Kieselguhr 3500 can adsorb moisture and odors. Therefore, it should always be stored in an intact bag in a dry, wellventilated place that is free from foreign odors.

Check odor in aqueous suspension before use.

#### **Delivery Information**

Kieselguhr C 3500 is sold under article no. 38.070 and is supplied in the following package size:

44.1 lb (20 kg) multi-layer valve paper bag

HS Customs Tariff: 3802 90 00

### **Certified Quality**

Kieselguhr C 3500 is monitored constantly in the laboratory to ensure consistently high product quality.
